

CLEAN ROOM ROLLERS

APPLICATION:

The SDI Floor and Wall Cleaning Rollers were designed specifically for cleaning the interior floors and walls of the Clean Room. This product provides a cleaning solution for this critical environment that prevents particles from becoming airborne. These rollers can also be used during actual production, minimizing the down time for maintenance of Clean Rooms.

FEATURES:

- s Unique adhesive coating stops particles from becoming airborne during cleaning
- s Lightweight with simple handle causes less fatigue during cleaning process
- s Longer handles can be added to unit for cleaning ceilings and high walls
- s Perforated for easy disposal of used material
- s Soft foam construction allows the roller to conform to irregular surfaces
- s Minimizes the need for sweeping, wet mopping or solvents

BENEFITS:

- s Reduces costs by eliminating the need to close clean room or shut down production for maintenance
- s Minimizes dust contamination throughout critical areas of facility
