

PVA Sponge Roll Covers

For Wet Processing Equipment

FEATURES

- s Most absorbent roll covering material available.
- s Provides a much more durable alternative to Cotton Roll Covers.

APPLICATION

- s PVA Sponge Roll Covers are designed to fit all wet processing equipment primarily pumice scrubbing, deburring machines and others.

DESCRIPTION

The PVA Sponge Roll Covers are highly water absorbent and very durable. The PVA foam is extruded into a tubular shape made to fit tightly over the diameter of the shaft of the roller in the wet processing equipment.

Availability

- s Custom made to order for your equipment's specific needs.

Ordering Note

- s You must specify the outside diameter of the equipment shaft and the required finished outside diameter of the PVA Sponge roller and the desired width, SDI will custom make the roll cover to your specifications.
- s Call for Prices and lead time, quoted upon request.
