

# POLYMER ROLLERS

## For Tacky Roll Cleaning Machines

Tacky polymer roller manufacturing  
& recoating services.

Custom polymer formula ensures  
top performance for all panel cleaning machines.

### DESCRIPTION

No special handling, chemicals or wipes needed.  
The tacky polymer of the roller lifts particulate matter from the surface without liquids or sprays. The roller is cleaned during the machine process when it comes in contact with the Adhesive Rolls

### FEATURES

Removes unwanted particles down to one micron in size.  
Upgrade program: upgrade or recoat polymer roller for any tacky roller machine.

Different tack levels available:

#### **HIGH TACK (DARK BLUE)**

Highly contaminated panels.

#### **STANDARD (LIGHT BLUE)**

For cleaning flex circuits, Artwork, and use on rigid, thicker substrates such as copper panels, etc.

#### **LOW TACK (GREEN)**

Ideal for panels with dry film prior to exposure

#### **SMC (YELLOW)**

Silicone free cleaning roller for general purpose use where silicone cannot be used.
